Beyond sports tournament report

We hosted our inaugural Beyond sports tournament at the Nakuru athletics club on 17th and 18th of August 2024.

We had six teams participating fielding various age categories and we hope to expand in the coming years.

This years theme was "Sports with an education perspective" Where all participating players were urged to embrace academics as they engage in sports.

Sports has been viewed as an option after education or entrepreneurship has failed, which is and should not be the case.

There was a lot of positives gathered when we finished the two day event while we noted challenges which we need to address and correct in the coming years.

Most notable was the age cheating or fielding of ineligible players in various age group, we will put strict measures to address this in the coming tournaments, this will minimize the number of injuries sustained by players and also ensure fair competition amongst participants. We will also need to have trained medics in each field as we noted most teams travelled with untrained medical personell.

Below is the tournament statistics as captured.

Beyond Sports 1st edition

AT A GLANCE

Various teams and categories registered

		under 7	Under 9	Under 11	Under 13	under 15.
